CONTENTS

SAFETY INFORMATION

- Read these instructions – All the safety and operating instructions should be read before this product is operated.
- Keep these instructions – The safety and operating instructions should be retained for future reference.
- Heed all warnings – All warnings on the appliance and in the operating instructions should be adhered to.
- Follow all instructions – All operating and usage instructions should be followed.
- Do not use this equipment near water – The appliance should not be used near water or moisture e.g. in a wet basement or near a swimming pool.
- Clean only with a dry cloth. Do not use solvents or petroleum based fluids.
- Do not block any ventilation openings.
- Do not install near any heat sources such as radiators, stoves or other apparatus (including am plifiers) that produce heat.
- Do not tamper with the supplied plug. This plug is a BS1363 standard plug.
- Protect the power cord from being walkedon or pinched, particularly atthe plug and at the point where they exit from the appliance.
- Only use at tachments/accessories specified by the manufacturer.
- Use only with a cart, stand, tripod, bracket or table specified by the manufacturer or sold with the apparatus. When a cart or stand is used, use caution when moving it to avoid any injuries or damage from it tipping over.
- Unplug the apparatus during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified personnel. Servicing is required when the apparatus has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus or it has been exposed to rain or moisture, it does not operate normally or has been dropped.
- Please keep the unitin a well -ventilated environment.
- The TV set should only be connected to a mains power supply with 220-240V 50Hz
- To prevent overload, do not share the same power supply socket with too many other electronic components.
- Do not place any connecting wires where they may be stepped on or tripped over.
- Do not place heavy items on the cable as this may cause damage.
- Hold the main plug, not the wires, when removing from a socket.

- Pull the plug out immediately and seek professional help if the main plug or cable is damaged, liquid has spilt onto the set, if accidentally exposed to water or moisture, if anything accidentally penetrates the ventilation slots or if the set does not work normally.
- Do not remove the safety covers. There are no user serviceable parts inside. Trying to service the unit yourselfis dangerous and may invalidate the product's warranty. Only qualified personnel should service this apparatus.
- To avoid battery leakage, remove exhausted batteries from the remote control when not in use for a long period.
- Do not block ventilation slots on the back cover. The TV can be placed in a cabinet but ensure at least 5cm (2") clearance all around.
- Do not tap or shake the TV screen, this may damage internal components.
- **WARNING:** To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. The apparatus shall not be exposed to dripping or splashing and objects filled with liquids, such as vases, shall not be placed on the apparatus.
- **WARNING:** The wall plug socketis used as a disconnection device and should remain readily accessible.
- **WARNING:** The batteries shall not be exposed to excessive heat such as direct sunlight or fire.

This warning sign is to warn of dangerous voltage inside the product.	**C A U T I O N** **RISK OF ELECTRIC SHOCK** **DO NOT OPEN** **CAUTION:** To reduce the risk of electric shock, DO NOT remove the cover (or back). No user serviceable parts inside. Refer servicing to qualified service personnel.	This warning sign is to alert you of important instructions accompanying the product.

This equipment is a Class II or double insulated electrical appliance. It does not require a grounded connection.

AT FULL VOLUME, PROLONGED LISTENING MAY DAMAGE THE USER'S HEARING.

TV System	PAL DVB-T2-C
Maximum	1920 x 1080
Brightness	260 CD/m^2
Static Contrast	1200:1
Response Time	8ms
Consumption	108W
Power Supply	AC100-240V – 50/60Hz
Connectivity	Composite Video Input
	Component Video Input
	PC Video Input (VGA)
	PC Audio Input
	HDMI input x 2
	RF Antenna Input
	RJ 45
	Headphones Output
	Coaxial Output
Data Interface	USB
Supported System Files	FAT32 and FAT16

Remote Control

Signal Type	Infrared
Control Distance	8 meters
Control Angle	30º (Horizontal)
Power Supply	AAA 1.5V x 2

PRODUCT DISPOSAL

Do not dispose this product as unsorted municipal waste. Collection of such waste must be handled separately as special treatment is necessary.

Recycling facilities are now available for all customers at which you can deposit your old electrical products. Customers will be able to take any old electrical equipment to participating civic amenity sites run by their local councils. Please remember that this equipment will be further handled during the recycling process, so please be considerate when depositing your equipment. Please contact the local council for details of your local household waste recycling centres.

TROUBLESHOTING

Problem	Solution
No power	Insert the power plug securely into the power outlet.
No picture	Ensure that the equipment is connected properly.
Distorted or no sound	- Ensure the equipment is connected properly - Ensure that the input setting for the TV and stereo system are correct. - Adjust the master volume to a suitable volume by pressing V+/V- button. - Check audio settings are correct. - Check set isn't muted. - Unplug headphones - Check the antenna connection.
Remote control not working	- Check the batteries are installed with the correct polarities. - Replace the batteries with new, fully charged ones. - Point directly at the remote sensor on the TV and try again. - Operate at a distance of no more than 6m. - Remove any obstacles between the remote control and the sensor.
Buttons on the TV don't do anything	Disconnect the power plug and then reconnect it. (The unit may not be operating properly due to lightning, static, or other factors.)
Poor picture or no picture	- Adjust the indoor aerial, use an amplified aerial or external digital antenna. - Have the DTV antenna checked or installed by a professional installer - Move anything that may cause interference. - Retry Auto tuning the unit. - Try another channel.
Noise or other interference	Electronic equipment near the unit may be causing interference. Relocate the unit or move the equipment.
